

wood problems?

The product:

We offer sustainable casework solutions for the healthcare industry. Our modular cabinet systems allow for maximum flexibility for your everyday demands.

○ **Inset panels are available in:**

PC Steel
Stainless Steel
Thermofoil
HPL

● **Doors are available in:**

Thermofoil
HPL
Framed: acrylic | aluminum with brushed s.s. finish

Noteworthy:

- Surfaces with antimicrobial protection actively decrease microbial activity on cabinet's surfaces
- Steel cabinet construction with the added beauty of thermofoil or laminate wood grain
- Sustainable cabinet design from the ground up – recycled steel cabinet material
- Exchangeable cabinet components make for easy modifications of existing installations and reduce cost of changes. No need to buy a whole new cabinet – replace a door with file drawers for a entirely different cabinet.

Adjustable drawer/door alignment to avoid the wood problems
